

How to Measure your Barricade for Jackets

Instructions:

Our custom barricade jackets are specifically designed to perfectly fit your barricade, achieving a professional and tailored look. To ensure the best fit for each barricade, we may need various measurements. Please follow the steps below and record the measurements in the allotted space.

NOTE

Do not be alarmed if your barricade is not identical to the picture. We will ensure that the custom jacket will fit any barricade variation on the market.

2

Measure the distance from the top of the frame to the top of the upper male hook.

3

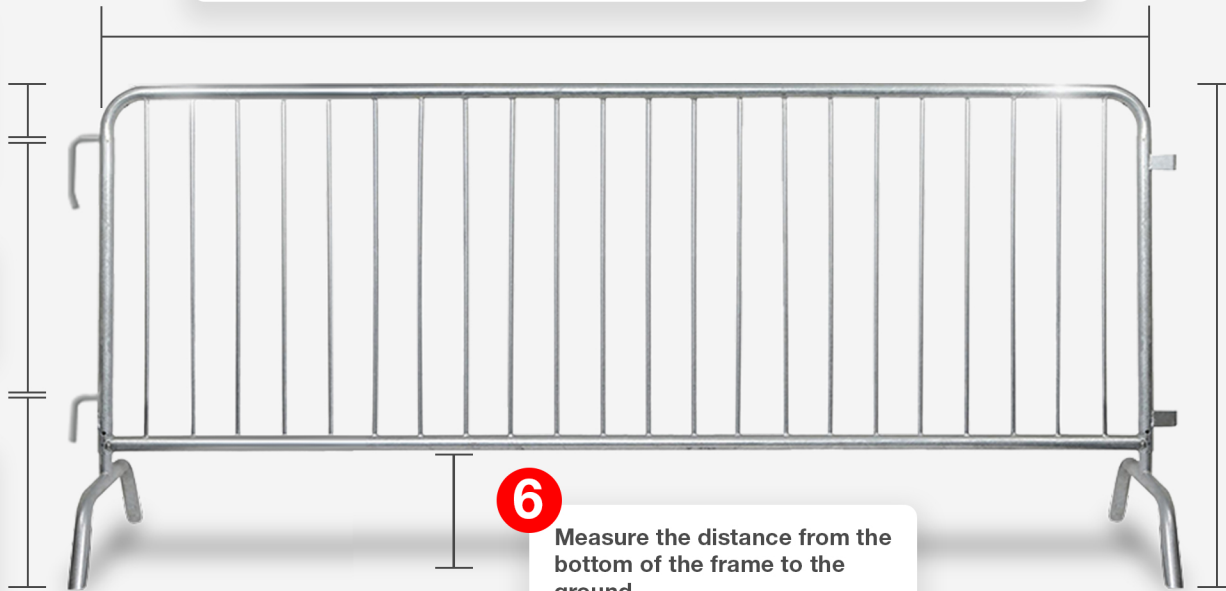

Measure the inside distance between male hooks.

4

Measure the distance from the top of the lower male hook to the bottom of the base.

1

Measure the length of the frame (NOT including hooks) _____

5

Measure the distance from the top of the barricade to the bottom of the base.

6

Measure the distance from the bottom of the frame to the ground.

NOTE

Once you have finished, please email the measurements to orders@queuesolutions.com to ensure a speedy delivery.
