

Barricade Covers are an ideal way to turn your barricades into high impact billboards. However most covers are designed to fit a specific brand of barricade. If you do not know which barricade brand you have our Throw Over Cover design is the answer. This cover does not enclose the hook and loop fixtures on the ends of the barricade to fit any brand of barricade. The cover can also be digitally printed in any number of colors. The simple “throw over” design makes fitting on the barricade fast and easy.
